

Product Description

Wafer Head self drilling screws with a head diameter of 11mm are designed for assembling steel framing components for upto 3.0mm thick.

Field of Application

Applicable for all Drywall systems.

Manufacturing Standards

Wafer Head Self drilling screws comply to ASTM C1002 - 98

Product Characteristics

Product Identity:	Wafer Head Screw
Coating:	Yellow Zinc / White Zinc
Rust Protection:	Anti-corrosion
Material:	Hardened Steel

Technical Data

Sizes (mm)

- M4.2 x 13 mm
- M4.8 x 19 mm

Material Packing Details

- 1000 Pcs per Box
- 8 Boxes per Carton
- 36 Cartons / Pallet

Part of Mada Drywall System: System performance warranty only by using the proposed Mada system products
