

How you can write SEO-optimized Content (with ChatGPT)

Anna York

Master SEO content with ChatGPT:

- ✓ Learn my "Best Hacks"
in 10 minutes

STEP #1

Open ChatGPT

The **old** way:

If you enter a prompt like:
*"Write me a blog article
about [Topic]"*

Chances are **big** that the
article **will not be good.**

This is why we need a **new approach**:

- A plugin for ChatGPT
named "**AIPRM**"

STEP #2

Plugin Installation

- ✓ Install and activate the free plugin **AIPRM**.

AIPRM for ChatGPT

 www.aiprm.com

It's a chrome extension.

After activating the plugin,
open ChatGPT again.

It should look like this now:

Here you'll find:

- Ready prompts for SEO content
- Keyword generator, keyword analysis, and much more

STEP #3

Find a title for your blogpost

Here are 3 simple steps to
find the perfect title for
your blog post.

First step: Select a **topic**.
Let's say copywriting.

Scroll down to
Blog Post Title Generator

Enter the following:

- Specific topic, (e.g. "Healthy lifestyle")
- language and
- tone.

Blog Post Title Generator × by [AIPRM](#)

Output in: English ▼ Tone: Default ▼ Writing Style: Default ▼ Continue ▼

Titles to write: 5 ▼

Healthy Lifestyle

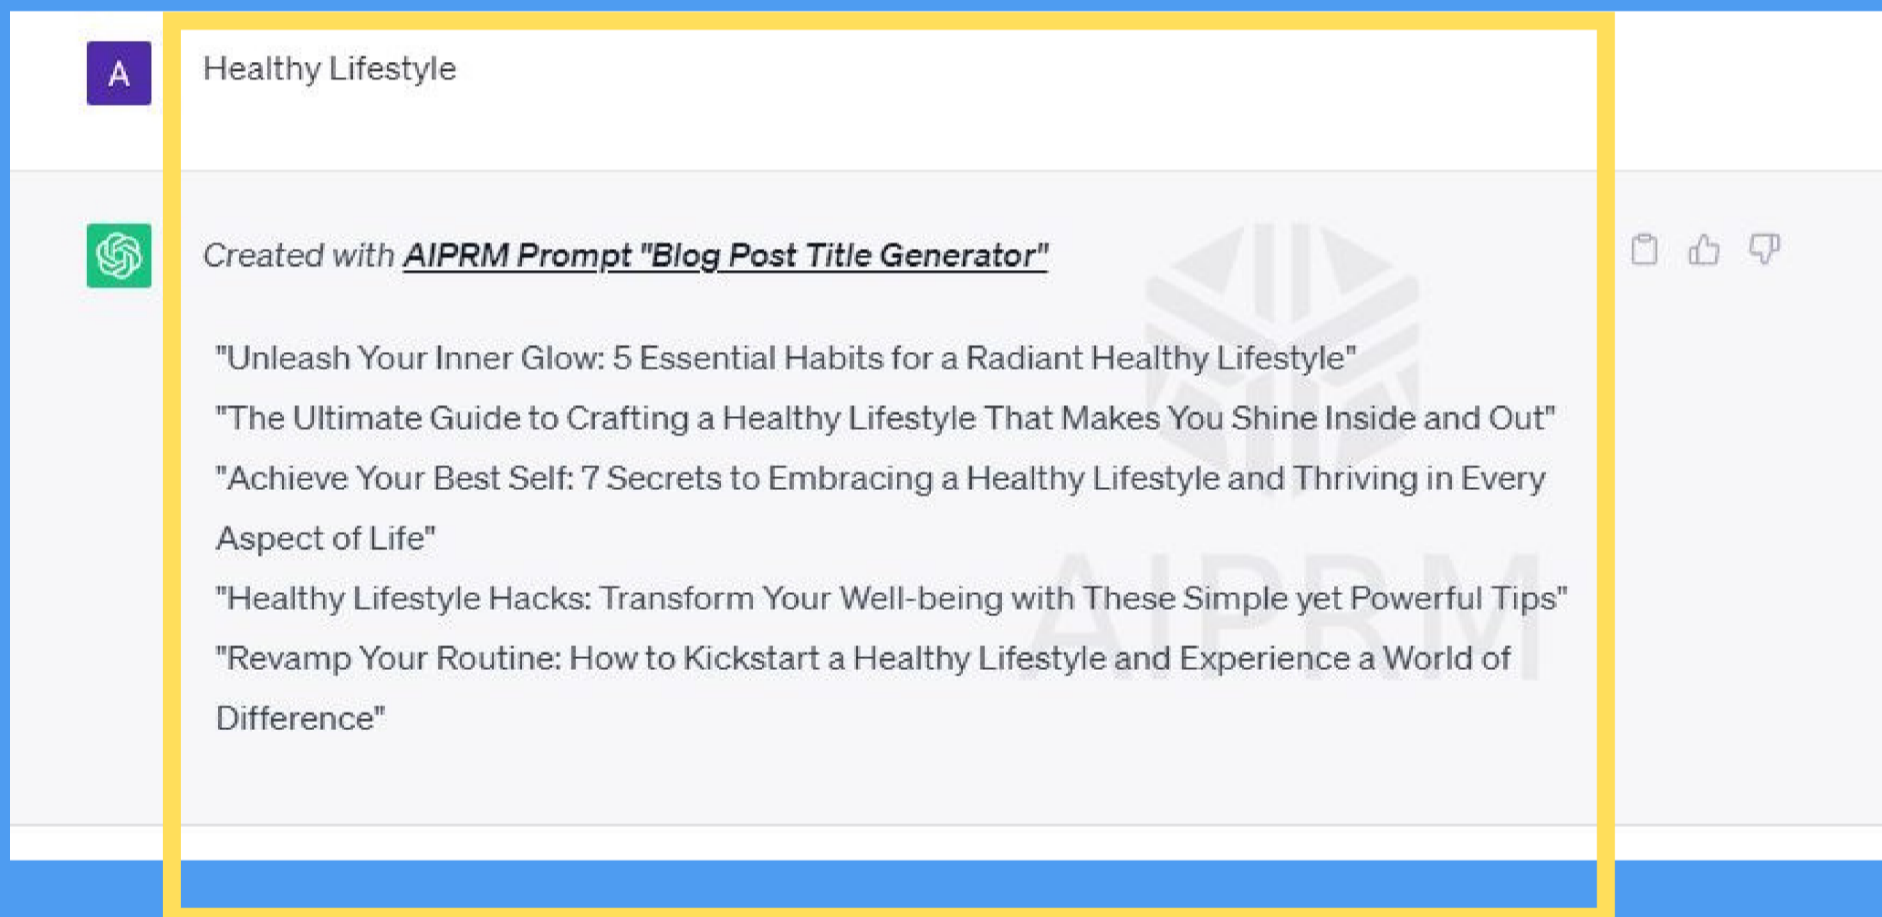

Include [My Profile info](#)

▶

The outcome:

5 blog post titles

A screenshot of a social media post. The post header shows a profile picture of a woman with a red beret and a yellow sweater, and the name 'A Healthy Lifestyle'. The main content of the post is a list of five blog post titles generated by AI. The text is as follows:

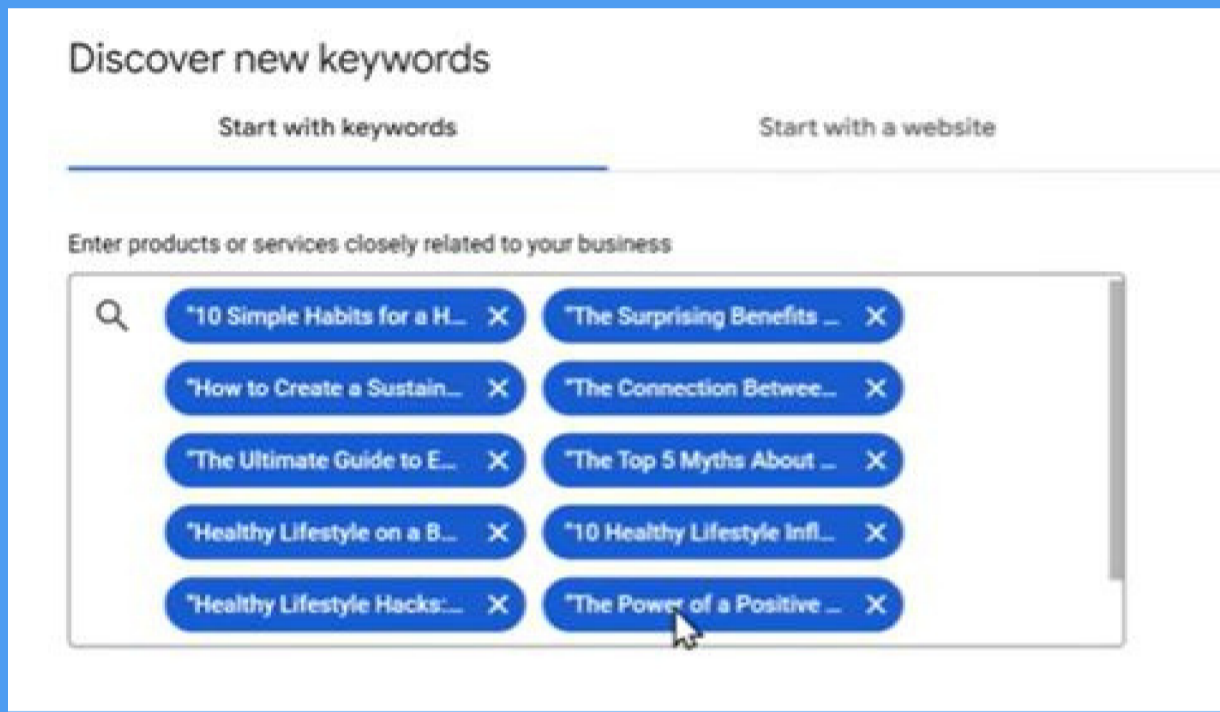

Created with [AIPRM Prompt "Blog Post Title Generator"](#)

- "Unleash Your Inner Glow: 5 Essential Habits for a Radiant Healthy Lifestyle"
- "The Ultimate Guide to Crafting a Healthy Lifestyle That Makes You Shine Inside and Out"
- "Achieve Your Best Self: 7 Secrets to Embracing a Healthy Lifestyle and Thriving in Every Aspect of Life"
- "Healthy Lifestyle Hacks: Transform Your Well-being with These Simple yet Powerful Tips"
- "Revamp Your Routine: How to Kickstart a Healthy Lifestyle and Experience a World of Difference"

The screenshot also shows a faint watermark of the AIPRM logo in the background and social media interaction icons (copy, like, comment) on the right side.

Copy & paste all titles into the **Google Keyword Planner**.

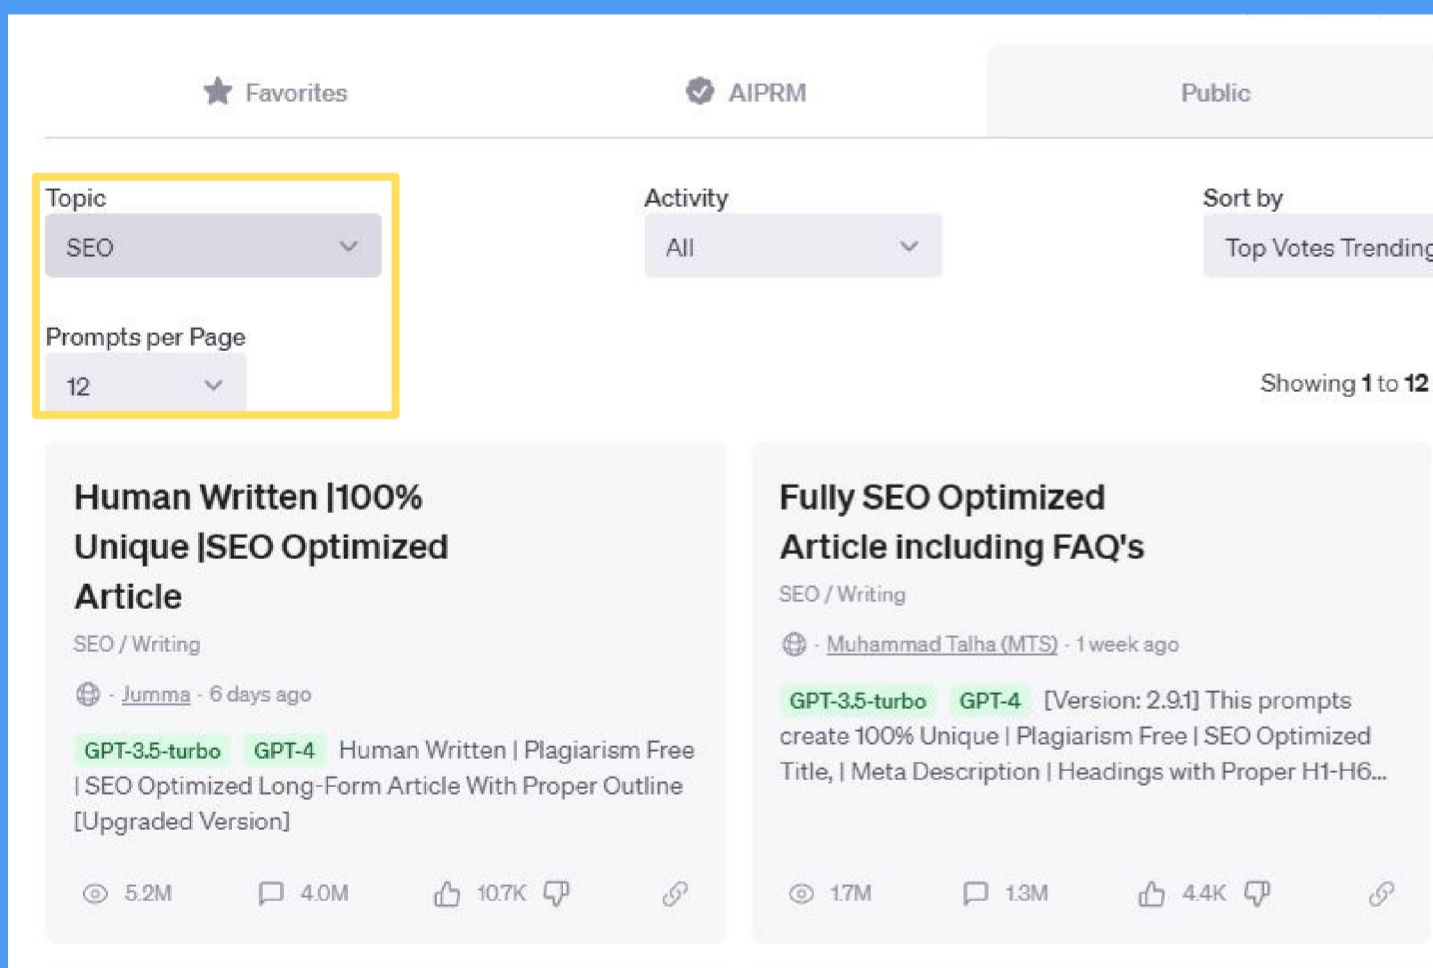

Now you see which keywords **rank best** and **which blog title** you have to **choose**.

STEP #4

Write your **article**

Go back to ChatGPT and set topic to "**SEO**" & choose your prompt.

The screenshot shows a user interface for a prompt marketplace. At the top, there are navigation options: "Favorites", "AIPRM", and "Public". Below this, there are search filters: "Topic" (set to "SEO"), "Activity" (set to "All"), and "Sort by" (set to "Top Votes Trending"). There is also a "Prompts per Page" filter set to "12". The main content area displays two article listings. The first listing is titled "Human Written [100% Unique [SEO Optimized Article]" and is by user "Jumma" (6 days ago). It features a prompt for "GPT-3.5-turbo" and "GPT-4" to create a "Human Written | Plagiarism Free | SEO Optimized Long-Form Article With Proper Outline [Upgraded Version]". The second listing is titled "Fully SEO Optimized Article including FAQ's" and is by user "Muhammad Talha (MTS)" (1 week ago). It features a prompt for "GPT-3.5-turbo" and "GPT-4" to create a "100% Unique | Plagiarism Free | SEO Optimized Title, | Meta Description | Headings with Proper H1-H6...". Both listings show engagement metrics like views, comments, and likes.

Enter your blog title and
here you go!
