

Innovation in the
Multi-Screen World

Kahuna 360 Compact

A New Generation of Production Switcher

Massive power - condensed!
Redefining what's possible
in the mid-size production arena

Broadening the reach of Kahuna 360 to a wider range of live production applications

The NEW Kahuna 360 Compact

Another 1st from Snell

Kahuna 360 Compact is the 1st of a new generation of switchers that delivers more power in the mid size production arena than ever before.

For sporting events, light entertainment shows, news production and presentations either in the studio control room, mobile vehicle or flyaways the Kahuna 360 Compact offers an elegant, reliable solution in a well engineered package that is understood the world over.

Kahuna 360 Compact tears up and redefines what is possible in the mid size production arena.

Available in 1 Full M/E, 2 Full M/E and 3 Full M/E versions, the Kahuna 360 Compact can take on the demand from SD through to any future 1080p production requirement. This well featured approach has FormatFusion3 and works in tandem with the switcher's powerful feature set. The switcher even mixes interlaced and progressive sources together in production and then simultaneously outputs SD/ HD and 1080p with no restrictions on the number of inputs or outputs, all integral to the 6RU mainframe.

Another first from Snell is Make M/E™ technology which is standard in the Kahuna 360 Compact. Make M/E™ breaks the tradition of the M/E and allows you to allocate your resources wherever you want them.

Supports SD, HD & 1080p **without compromise**, so you can relax and migrate whenever you're ready

Pre-Configured Systems

	Inputs	Fully Assignable outputs	Number of Keys	Resizers	3D DVE	RGB color Correction	Programmable Outputs	External Control	Redundant PSU	Control Panel	GUI
3 M/E	48	24	12 (24 Key Layers)	12	-	Input & Output	Yes	Yes	Yes	3 M/E 32 Crosspoint	Yes
2 M/E	48	24	8 (16 Key Layers)	8	2 Channels	Input & Output	Yes	Yes	Yes	2 M/E 24 Crosspoint *	Yes
1 M/E	12	8	4 (8 key Layers)	4	1 Channel	Input & Output	Yes	Yes	Yes	1 M/E 16 Crosspoint	Yes

* choice of flat trimmed or standard panel

All pre-configured systems can be easily upgraded and tailored to your application. Further information can be found on the Kahuna 360 Compact datasheets.

Key Features

- SD/HD and 1080p (single link) format switcher
- Up to 60 inputs and 32 outputs, all capable of SD/HD or 1080p
- Full programmable outputs for multiple feeds
- Up to 11 key layers per M/E
- 8 Resize engines per M/E
- Make M/E™ technology
- Up to 4 channels of comprehensive integrated 3D DVE effects
- Large integrated clipstore with powerful editor
- RGB Color Correction on inputs and outputs
- Sophisticated effects memory system and macros
- Multi-panel support
- Upgradeable with all Kahuna 360 options including FormatFusion3

Multiple productions at different formats with 1 M/E

Customer Support

Kahuna Care Service

Snell's customer service offers first class solutions for optimizing your operations, through world-leading technical support and fast responsiveness during the life of your product.

Kahuna Care is a premium support package that offers professional services 24 hours a day all year round. Benefiting from advance parts replacement service, your mission critical system will always be maintained to the highest standard both quickly and effectively. Snell also offers health checks, repair services, training and spare parts packages, giving you total peace of mind throughout the life of your product. Snell's customer services are there to help and support you. For further information about Kahuna Care contact customersupport@snellgroup.com

Kahuna Club

Kahuna Club is an on-line community for Kahuna users, where information and ideas can be shared between users and owners, and where Snell can easily communicate with valued Kahuna customers.

The Kahuna Club web site provides all Kahuna customer contacts with a 24 hour, 365 day a year, one stop resource, featuring customer support, information on the latest product news, upgrades (options, spares and customer service contracts), special offers and discussion forum.

Training

To ensure that customers experience the full benefits of their switcher, Snell is committed to providing the highest levels of training for Kahuna owners, operators and engineers.

Training before and after a system purchase is available worldwide at customer premises, Snell offices or an alternative third party location. The duration of these training sessions will depend on user requirements.

Courses are available for basic or advanced operations, technical support, maintenance and familiarization. They can be custom-designed to meet specific requirements.
